Selectmen's Statement.

As directed by a vote of the town one year ago your selectmen submit herewith an estimate of what it will be necessary that the town raise to meet its current expenses the present year.

It is expected that a law will be enacted the present session, as recommended by the tax commissioners, providing for a uniform system of accounting for all the towns in the state, and in this system will be provisions for a budget covering all the requirements of the town for the year, this is not submitted as such, but rather as a partial report of last years business together with an estimate of what the town will have to raise this year.

The State tax will be the same as last year, while it is expected that the County tax will be about 25 per cent higher. The sum of \$2,000 for current expenses should be sufficient this year unless some unforeseen thing should arise.

HIGHWAYS The highway problem is one of the greatest and most serious ones confronting us today, as will be seen by the report over ten thousand dollars was expended upon our highways and bridges the past year, and even then some of the roads were sadly neglected. The State highway department have made their estimates of the amount to be raised this year as follows:

Amount required by law to be raised for general repairs and maintenance \$2,500.00 of this \$1,182.00 must be set aside for permanent improvement, and if the town votes to ask for State aid it will also have to raise an additional sum of \$591.00 in which case the State will give \$443.25. It is estimated that it will require two years more to complete the improvements upon the road to Bethlehem and Littleton, assuming that the same amount of money is expended in each of the next two years as in the past, and it seems advisable to continue this work to completion as rapidly as the finances of the town will permit, it is also estimated that it will take \$800.00 to maintain that part of this road already finished, this year, and a patrolman may be employed, of this the town is required to raise \$400.00 and the State \$400.00. It is estimated that it will cost \$3,600.00 to maintain the Trunk Line, the town being required to raise \$1,200.00 and the State will give \$2,400.00. Under these estimates the town will have to raise a total of \$4,691.00 and under this estimate there is available but \$1,318.00 to maintain our other highways including the snow bills in the winter, and which amount we all know is not sufficient to keep them in anything like a satisfactory condition, and some action should be taken toward improving them.

STREET LIGHTS. Under the present contract it will be necessary to raise the sum of \$1,134 00 for street lights, but as the present con-

tract runs out in October it is not now known what the lights may cost after that date.

TOWN HALL. Upon assuming office one year ago the roof was found in so bad a condition that not withstanding there was no appropriation available, it seemed necessary to newly shingle it, and which was done.

There are practically no toilet accommodations in the building, and it is generally thought that something should be provided, also some other minor repairs should be made at a total cost of not over \$500.00.

TOWN DEBT. During the past year your selectmen have issued \$50,000. in bonds to take up the town debt which was carried by demand notes, this was all right when the debt was small, but as the debt increased and there were so many notes outstanding it became necessary to replace the loans quite frequently, and as the money market is constantly changing, sometimes it was necessary to pay more than 4 per cent in order to get the money, these are 4 per cent bonds and are issued in denominations of \$500. each, payable serially, one thousand dollars annually for the first five years and fifteen hundred dollars annually for the next twenty years until the last year when \$16,500 mature which will have to be taken care of by refunding or such other way as may seem best at that time. Under the provisions of these bonds we should raise \$1,000. this year to apply on the debt.

Actual deficit for the year		\$2,583.30

We regret to have to report an increase of the debt of the town as a result of the years business, and just a word of explanation as to its cause may not be out of place at this time.

The town poor bills were unusually large the past year, but as they were all worthy cases, the bills have been willingly paid. Amounting to a total of \$1,511.00.

It was seemingly necessary to shingle the town hall, also purchase two new road machines, for neither of which was there an appropriation, this cost \$586.10. The snow bill of the past year amounted to \$848 69 this together with the increased cost of both labor and supplies has caused our highways to cost us an amount largely in excess of the appropriations.

Respectfully Submitted,
